To Whom It May Concern:

Every year around the first weekend of November, our college hosts "Youth Edge," a retreat for about 400 high school students and their leaders. This past fall, we had the privilege of being led in worship by Bob Hartman and John Schlitt in what turned out to be a precursor to the "Vertical Expressions" album and ministry.

To be frank, many of the youth who came knew little of Bob and John at the start of the weekend, even if their leaders were excited. Over the course of the weekend, however, the youth clearly were ministered to in the times of worship, and took to Bob and John. Their authenticity, love of God, and incredible abilities as musicians helped to make our weekend a success.

We would recommend Bob and John without reservation, and not just for the Gen-X crowd who grew up listening to them. They have an effective ministry, and are a joy to work with.
