To Whom It May Concern:

If you are considering having John Schlitt and Bob Hartman, The II Guys From Petra, come to share in a concert in your area, I want to personally recommend that you do. We hosted them back in December and had a tremendous time.

Beside John and Bob's heart for God, I was intrigued by all the humor that they injected. I'm not sure they were trying, it just came naturally. We had a blast.

I have had many opportunities to spend time with John over the years, which has always been a blessing. However, I had a chance for the first time to spend a lot of time speaking with Bob. I realized that it is no wonder why Petra was the band that they were. He is a true visionary.

The long standing mission and vision of Petra continues to be evident on stage with John and Bob. During our Sunday morning service the standing ovation for these legends would not stop. John finally signaled for them to please stop applauding. You could easily see them reflect the glory to God.

If I were you, I would get Sue Dempster on the phone and book John and Bob today!!

Yours for the music of the Legends!
